WORK EXPERIENCE

Xerxes Global - Frontend & App Developer

October 2023 - Present | Saint Paul, MN

- Build performant, responsive interfaces using WordPress, PHP, and Directus
- Develop and consume REST APIs across headless CMS and mobile projects
- Lead development from scratch to deploy with an eye for UX and clean code
- Bring creativity and grit to debugging sessions

fjorge - Frontend Developer II, Lead Developer

Apr 2021 - May 2023 | Minneapolis, MN

- Built custom UIs across multiple platforms, translating specs into polished builds
- Oversaw projects from kickoff to launch, mentoring junior devs along the way
- Acted as client liaison, explaining dev concepts without the jargon soup
- Delivered production-ready code across modern stacks (JS, HTML, CSS)

Freelance Web Developer

May 2016 - Apr 2021 | Saint Paul, MN

- Designed and built responsive sites and tools from wireframe to live
- Developed accessible UI components with Angular, Bootstrap, and more
- Delivered consistent results across tools like Gulp, Docker, Bitbucket
- Balanced multiple clients and timelines like a circus juggler in a sprint

Minnesota State University, Mankato

BA, Sociology & Communication - Magna Cum Laude
